

KET-PSA-230.012.005.C

Power Supply 230 VAC with output 12 VDC / 0.5 A output from junction box

- **Rated Power 5 W**
- **Small size**
- **Suitable for civil and industrial use**
- **AC input range from 85 V to 265 V**

The **KET-PSA-230.012.005.C** is a **small, cost-effective power supply**, suitable for installation in junction boxes, with 12 VDC / 500 mA / 5 W output. It adopts the full AC input range from 85 V to 265 V and complies with **EN61000-3-2**, the standard the European Union regulates for harmonic current. The KET-PSA-230.012.005.C is designed with a plastic housing that can effectively prevent electrical hazards.

Accessories
KET-AIR-210
KET-AIR-200
KET-THL-305
KET-TLP-105
KET-WIR-100

Technical Features	
General specifications	**Protection Range**: IP20
Case	**Dimensions**: 6 x 3 x 2.4 mm (W x H x D) **Mounting**: Suitable for junction box
Current and voltage input	**Voltage Inputs**: 85 ÷ 265 VAC (47-63 Hz) **Current Inputs**: 2 A/115 V; 1 A/230 V
Current and voltage output	**Voltage Output**: 12 VDC **Current Output**: 0.5 A **Output Power**: 6 W
Certifications	**Referends Standard**: EN61000-3-2
