# ✕ kerberos

IP68

# NTC temperature sensor

- **Temperature measurement from -50 °C to +110 °C**
- **3 m cable**
- **RJ45 connector for Rack**

The KET-RKT-100 is an NTC temperature probe made of black thermoplastic rubber, with a 3 m cable that allows easy access to the measurement points.
Through the RJ45 connector it is connected to the Rack Master or Slave (KET-RKM and KET-RKS).

# KET–RKT–100

## Applications

## Versius

KET-RKT-104

18,4 mm    3,3 mm    3,3 mm

| Technical Features | |
|---|---|
| General specifications | **Protection Range**: IP68<br>**Operative Temperature**: -50 ÷ +110 °C |
