

# KET-AGA-005.05

| Applications               |
|----------------------------|
| Building management system |
| Accessories                |
| KET-MUM-100.4G             |

## Omnidirectional high gain 5 dBi antenna, multiband GSM/LTE and with 5 m cable

- Wide frequency band (698~960/1710~2700)
- Ideal for GSM/LTE/CDMA/PCS/W-LAN systems
- High gain 5 dBi
- 5 mt cable with SMA-m connector

The **KET-AGA-005.05** is a high gain (**5 dBi**) Multi-band Omnidirectional Antenna with a wide frequency band (698~960/1710~2700), low standing wave, strong anti-interference capability, ideal for 3G (GSM), 4G (LTE), CDMA, PCS and W-LAN systems.

Thanks to its high degree of protection, IP65, can be installed in both industrial and outdoor environments.

It is equipped with a 5 m cable with SMA-m connector.

| Technical Features     |                                                                                                                                                                                                                                                                  |
